Meteorologist's View

Nothing to add

Forecast for Friday 06 May 2022

Weather: Cloudy with the odd spot of rain in the early hours. Some heavier and more persistent rain will arrive after daybreak leading to a fairly wet morning and early afternoon with extensive hill fog. The rain will then peter out during the afternoon, with cloud then breaking up to leave a sunny evening with clear spells after dark.

Maximum wind: Southwesterly 25 gusts 35mph in the morning becoming westerly and easing 15 gusts 25mph later, becoming northwesterly in the evening.

Chance of cloud-free hill tops above 800m: 10% or less in the morning and early afternoon improving 50% by late afternoon and 90% in the evening.

Low cloud and visibility: Extensive low cloud until early afternoon bases as low as 400m in south and west, the odd lower patch, gradually lifting during afternoon then breaking and dispersing by evening. Visibility below cloud, moderate or poor in the morning and early afternoon in rain then becoming good.

Temperature: **Valleys:** 11 Celsius rising to 15 Celsius
At 800m: 6 Celsius
Freezing level: Above summits
